CUSTOM AIRBRUSH TANNING | Airbrush tanning is the ultimate way to apply the smoothest, most natural lasting sunless tan. Please do not confuse airbrush tanning to misting booths, which are extremely messy and can leave you streaky and orange.

Our **all natural** tanning solution offers a bronzer for an instant tan result and is applied by a tanning professional. Most tanning solutions are loaded with chemicals, alcohol and dyes that are absorbed by your body. Not ours! We use a safe, natural tanning solution containing the finest botanical ingredients such as sugar cane and beet root. This solution produces a natural looking tan without the bad smell and toxins. Great for special events, vacations and is the safe alternative to tanning beds.† - \$45
